

# technology DAYS DOORS and WINDOWS

FEBRUARY 5/7-2015  
Rimini

scmgroup

Scm Group invites you to discover the technology for doors and windows manufacturing.

From the 5<sup>th</sup> to the 7<sup>th</sup> of February, we will present innovative solutions for routing-boring, sanding, and pressing dedicated to windows and doors production processing. Our specialists will be at your disposal with their competence demonstrating these innovations.

## innovations and demo

- 3D machining of window components on **new CNC machining centre Accord 25 FX**.
- Great precision and finish quality for the manufacturing of linear and arch windows, doors and stairs elements on the **CNC machining centres ACCORD FX and FX-M range with automatic and multifunctional worktables**.
- Window frames of any shape, profile and joint type, with high productivity levels thanks to integrated processing on **Accord WD and Integra Machining cells**.
- Complete process of calibrating, sanding, denibbing and structuring of window frames on **new Sandya 900 and System Sanding machines**.
- Quality pressing for veneered doors on **new Press GS6/100**.

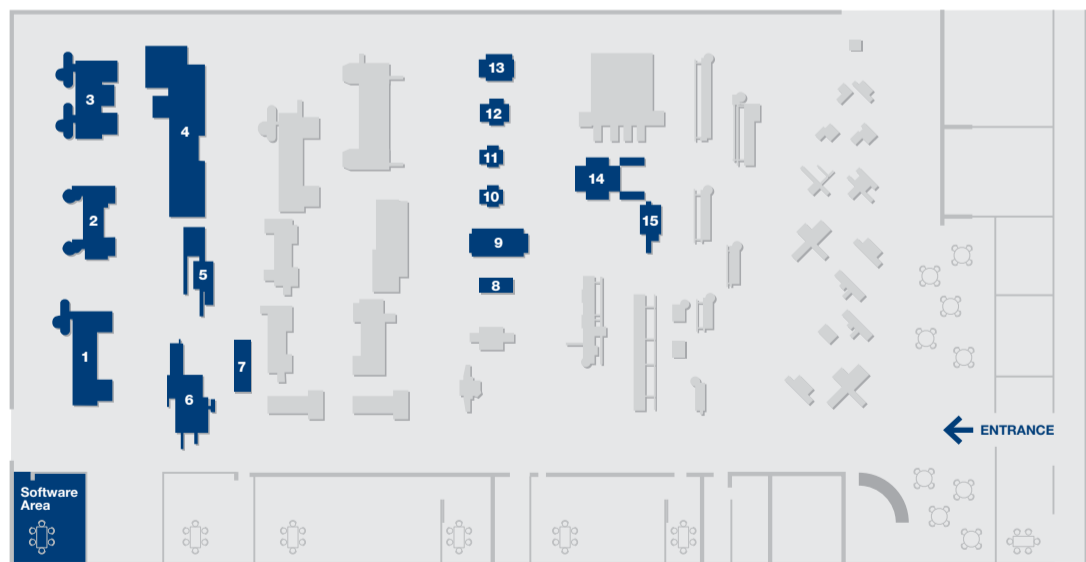

## software

Live demonstrations will be performed on **Xilog Maestro, the Scm Group programming software, and on the specific applications: Maestro WD, Maestro 3D, Proview, MSL**.

## location

The Technology Days will take place **Thursday 5, Friday 6 and Saturday 7 from 9 am to 6 pm** at Scm Group Headquarters in Rimini.

Visitors will be able to attend the process machining operations in our showroom and to follow guided tours around the production site.
