

20th April 2016 – SEMINAR INVITATION

SEMINAR INVITATION

'A' RATED FUTURE-PROOF THERMAL TIMBER WINDOW PRODUCTION

20th April 2016

**Leeds College of Building
North Street, Leeds, LS2 7QT**

Leitz Tooling in cooperation with SCM Group UK is holding the next in its hugely successful series of one-day timber window production seminars at Leeds College of Building on 20th April. Companies who attended previous seminars and customers using Leitz ThermoTech Window System said:

"The fact that Leitz has already done the work with the BFRC for energy rated window licences was a key factor in our decision to buy their tooling, and we're winning most of the work we quote for."

TimberMaster, Leics

"We make timber windows for contractors, developers, housing associations and home-owners, and the tooling system from Leitz means we now make them quicker and easier than ever before."

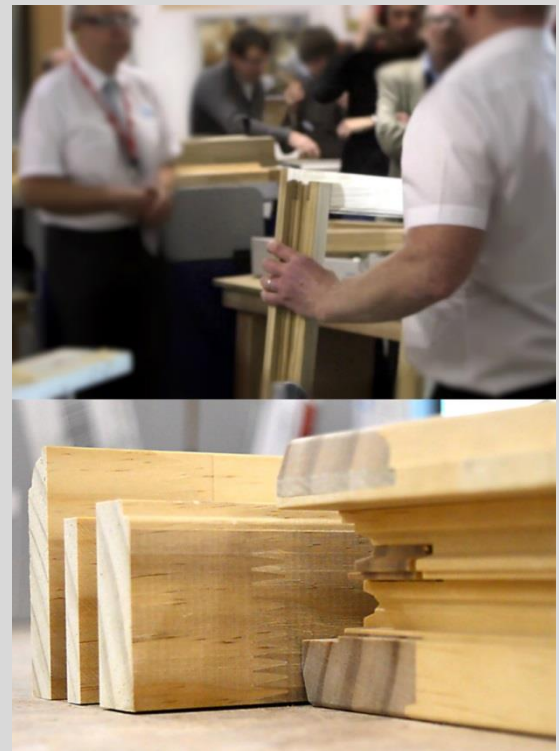

T O'Malley Joinery Ltd, Lancs

Register now! With companies looking to diversify, keep up-to-date with regulations and seek a competitive advantage - along with Leeds' central location - the seminar is booking fast. The seminars are accredited by the BWF's Woodworking CPD Programme.

Practical demonstrations of timber windows being made in a matter of minutes will be held in the afternoon.

Seminar places are charged at £15 per person, which will be donated to local charities. Coffee and lunch is provided. Places are strictly limited. Email chris.jackson@scmgroup.com or call **07721 921012** for more information and to confirm your attendance.

Yours sincerely,
SCM Group UK
